ECONOMICS BA
Fall 2016 – Spring 2017

CONTACT INFORMATION
- Honors College Advisor: Anthony Hoefer (ahoefer@gmu.edu)
- Department Chair: Daniel Houser
- Undergraduate Director: Jason Dunick (j dunick@gmu.edu)

Once students begin attending Mason and declare a major they should see both their Honors College advisor and their major department advisor for advising. Students must confirm their major requirements with their department advisor and with PatriotWeb’s Degree Evaluation.

The Economics BA degree has an optional concentration in Philosophy, Political Science, and Economics (PPE). Also, students who complete six hours of ECON 495: Honors Thesis in Economics, and meet GPA requirements are eligible to receive departmental honors. See the Undergraduate Director for details and advising.

ADVISING SHEET
- Honors College Requirement
- Department Requirement
- CHSS Requirement

NOTES

1. The MATH 113/114 sequence is strongly recommended for honors students who plan to attend graduate school in Econ. In fact, the BS degree may be a better choice for these students. (See Prof. Dunick in Economics.)

2. The Honors sections of these courses can be used to satisfy Honors College Requirement 3, although CHSS requirements for the BA are satisfied by the extra HNRS courses HNRS 130 and HNRS 230. Unless a student is taking other courses to satisfy these CHSS requirements, s/he is not required to take further Req. 3 courses.

3. Students receiving a BA from the College of Humanities and Social Sciences and the College of Science fulfill the Mason Core requirement in natural science by completing 7 credits of approved natural science courses, including one 4-credit course with a laboratory experience. Please review the list of courses that fulfill the Mason Core’s Natural Sciences requirement.

4. Students can fulfill their statistics requirement in economics by choosing one of three 2-course sequences: (a) STAT 250 and 350, (b) BUS 210 and BUS 210, or (c) STAT 344 and 354 fulfill this requirement. BUS 210 and 310 require HNRT 225, MATH 108, or MATH 113; HNRT 225 will not be sufficient. The prerequisite for STAT 344 is MATH 114 or MATH 116.

HONORS REQUIREMENTS (see advising section of Honors College website for further details)

- All Honors College students earning a BA degree must complete Requirements 1 and 2 of the Honors College Curriculum, including taking 3 courses under Requirement 2. In general, it is expected that those students earning a BS will take HNRS 122, HNRS 131, and HNRS 240 to fulfill Requirement 2. If they do not, then they must complete the corresponding general education requirement with courses that are outlined in the University Catalog for your catalog year.
- In addition, students earning a BA degree must complete additional college requirements (Honors College Requirement 3). A full list of courses approved for Requirement 3 can be found on the Honors College website. These courses must be approved by your Honors College advisor in your Plan of Study.
