i MATH 113, MATH 123 and 124, HNRT 125 or HNRT 225 fulfills the quantitative reasoning requirement for the Honors College. Each MATH course requires a placement test. The tests will be offered during Orientation.

ii To fulfill this requirement, students can continue the study of one language beyond the intermediate proficiency level (required for all BA degrees in the college) or choose to study other languages. Students fulfill this requirement by completing one of the following: Three language courses (9 credits) beyond 210 or Two language courses (6 credits) beyond 202

iii HNRT 227 can be substituted for any four-credit lab science course accepted by the Mason Core requirements. See the University Catalog for your catalog year for a detailed course list.

iv Courses applied to a Global Affairs concentration should come from two different disciplines. They have to be unique to the concentration: They cannot be simultaneously used to fulfill any general education requirement or college requirement for the bachelor’s degree. They cannot be applied to any other major, minor, concentration, or certificate.

v Exceptional GLOA majors with between 75 and 90 credit hours are eligible to apply to the accelerated MA program in Global Affairs. Please visit the GLOA website or contact the Graduate Academic Program Coordinator for more details: Erin McSherry (emesherr@gmu.edu).

vi High achieving Global Affairs majors with an interest in research are encouraged to apply to graduate with honors. Students with a minimum GPA of 3.5 and between 75-90 credits completed should apply in the spring semester of their junior year. NOTE: Applicants who meet the minimum requirements are not guaranteed acceptance. Please speak with your GLOA advisor about how to apply.
